

ted States embassy in London, has been transferred to the same post at Berlin. The change was made, we believe, at the request of Mr. Fay, the state of his health, and the wish to obtain certain literary facilities, making a residence on the continent desirable to him. It affords us pleasure to remark the kindness with which his wishes in this matter were complied with—we might almost say, anticipated.—N. Y. Com. Adv.

The tolls on the Ohio canal for the month of May this year, exceed those for the same month last year about *twelve thousand dollars*. The whole amount received for the month, is rising off *fifty thousand dollars*.—Detroit Free Press.

LARGE FUNERAL PROCESSION.—The Boston papers of Saturday, mention that 46 four wheeled, and 16 two wheeled carriages followed the remains of Mr. Murray, an old and distinguished Universalist preacher, to Mount Auburn, on Thursday. There were present at the ceremonies 57 of the Universalist clergymen of Mass., besides a large number from the neighboring States.

GEN. JACKSON.—We yesterday received a letter from Nashville dated on Friday last, which says: "We learn, this morning, that Gen. Jackson was thrown from his horse a day or two ago, and so injured as to render him speechless."—Louisville Journal.

MERCANTILE INTEGRITY.—It appears from a letter addressed by the Collector of the port of New-Orleans to a committee of the merchants of that city, that the whole amount of duty bonds which remained unpaid from the year 1804 to 1834 was but \$20,000, and that of this amount only about \$12,000 will remain unpaid at the end of the present year. Since the present collector came into office he has not had occasion to institute a suit on a duty bond, although he has received since 1834 nearly nine millions of dollars on account of the public revenue.

PROXIMITY OF BOSTON.—Passengers who left the city of New-York on Friday evening last, in the Narragansett of the Boston and Providence Rail Road Line, arrived in Boston a few minutes after 2 o'clock on Saturday morning.—The passage was made, with a heavy sea, by which the boat was retarded probably fifteen minutes.

To Newport in ten hours and Providence in 12 hours, and fifty-four minutes, running time.—N. Y. Gazette.

ADVERTISING.—The following remarks on the advantages of advertising, to business men, are just, and to the point. No tradesman ever lost any thing by advertising, and those who have tried it will at once acknowledge the truth of our remark. Nothing gives character to a man of business, and to the place which he resides equal to advertising in a newspaper. Persons at a distance, always judge of the prosperity of a place by the advertising columns of its papers.

"Men of enterprise—real, active business men, those who understand the secret of success in trade—are always found to advertise freely; for they know from observation and experience, that the payments a merchant or any business man makes for such matters, is decidedly the most beneficial of any—paying more than three-fold to the person advertising. It also gives character and standing to individuals and places."

SUMMARY.

THE EXPRESS MAIL, since its establishment, as announced by the Globe, has produced a net revenue exceeding \$100,000.

CHURCHES.—Few cities of so small a size, recent origin and few families can boast of so liberal patronage of the different religious denominations as ours. The Baptist church has a settled minister, Mr. Hinton; the Roman Catholic two, one to preach in Dutch the other in English, Messrs Shaffer and St. Cyr; and the Episcopal one, Mr. Hallam. The Presbyterians have invited Mr. Blatchford to become their pastor and he has accepted. Mr. Thurston has been temporarily preaching for the Unitarians and we learn that there is frequent preaching among the Methodists. The Universalists are about organizing a society, and perhaps some other denominations. We mention this fact as many Eastern people are loth to leave their home on account of their religious Privileges.—Chicago Democrat.

We learn from Berlin, that the pecuniary embarrassments and heavy failures in England and America begin to affect that city. Several large houses at Dantzic and Elbing have stopped payment.

Irving's new work, relating the Adventures of Captain Bonneville, of the United States Army, on a journey to the Rocky Mountains, is now issued. It may be considered a sequel to 'Astoria.'

The continuation of Moor's History of Ireland is in the Philadelphia press—as is also a work containing Lord Brougham's opinions on politics, law, theology, science, education, literature, &c.

The Natchitoches Gazette says that a company has been organized to explore the country up Red River, in search of gold and silver mines.

Maximilian Polonices, a celebrated Grecian Painter of antiquity, is represented to have exhibited on canvass a sea-sick family so perfectly, that no one could look upon it without instantly vomiting.

RURAL FELICITY IN THE WEST.—The prairies of Illinois are so levelled and free from obstructions, that after turning the first furrow, the ploughman seats himself on the plough, which is guided by wheels, and rides for miles without the least trouble. It is not uncommon to see one lolling at ease reading some book or fiddling for his own amusement, or that of his oxen. Who would not be a farmer?

At this season of the year when cattle are usually affected with the *horn distemper*, I would remind their owners that by pouring a tea spoon full of spirits of turpentine into the cavity in the back of the head of cattle, they may be saved from the effects of this troublesome and often times fatal disease.—Argus.

The new steamboat Richard Stevens was lately launched at Geneva, for the Seneca Lake trade. She is a fine boat, of 80 horse power.

On Wednesday night, two of the city watchmen stopped a fellow in the lower part of the city of New York, carrying a trunk, which had just been brought ashore from a vessel recently arrived. Suspecting all was not right, they took charge of the trunk, which was found to contain jewelry to a large amount, which had been smuggled.

The Oswego Palladium says that the Superintendent of light houses on Lake Ontario has received orders for constructing a light-house at Stony point, an important land mark between that port and Sackets Harbor, as soon as the Navy Commissioners shall determine that as necessary for the wants of commerce.

A GOOD REASON.—A Methodist minister in Vermont has forbidden any one to play a bass viol in his church. He says, however serious his thoughts may be, the moment he hears a fiddle, he goes to thinking how he used to dance.

A new communication has been established between Augusta and Pensacola and Tallahassee, by means of steamers on the Choctawhatchee river, in addition to which such connections are to be formed, as will render the interior of Florida easily accessible.

A fellow in giving in his deposition in regard to an assault upon his person, said—"he presented a pistol, and swore he would blow deponent to hell, and he verily believes he would have done so."

The Newport Mercury of the 17 ult. says: "This number commences eighty years since the Newport Mercury was first published in this town, (June 12 1757,) by James Franklin, elder brother of Dr Benjamin Franklin."

EXTRAORDINARY PHENOMENON.—On the 28th April, a hill 100 feet high at Koclesin in Prussia, on the Baltic sea, sunk suddenly into the earth, leaving an abyss 200 feet wide.

STRAWBERRIES.—The last Newburg Telegraph says, it had a taste of strawberries from the garden of Teller and Bloomfield, of that town, measuring three and a half inches in circumference.

NEW ERA AND AMERICAN COURIER.
THE labor and expense bestowed upon this paper, have already gained us a large list of country subscribers; and we shall spare neither time nor money in making it the most useful and interesting paper in the Union. We contemplate many improvements in style and arrangement, which our country friends must assist us in executing. We are now engaged in procuring some beautiful designs, and it is our intention to introduce one or two more every week, as soon as our subscription lists shall have so increased as to warrant the expense of engraving. They will be done on wood by one of the first engravers in the city.

In point of local intelligence, scientific essays, literary articles and general news, our paper is already acknowledged equal to, as in size it exceeds any now issued in the United States. As a family newspaper we never have, nor never shall insert into its columns, an article or a sentiment, that shall call a blush on the cheek of beauty. Humor, wit and pleasure, may always be found and of the most enticing nature, without swerving from modesty, and deriding morals or religion, and of such a cast shall ours be.

Besides embracing all that we have stated above, our paper will contain a Bank Note Table and a Price Current, corrected weekly. We hope our friends in the country will assist us in extending our circulation, that we may at once commence our intended improvements.

TERMS.—Three dollars per annum, or six cents a single copy, payable in advance. No orders attended to unless the money is remitted, post paid, or a city reference given.

(C) Post Masters throughout the Union, and in the Canadas, are requested to use their influence to obtain subscribers, and we will send them a paper gratis.

(C) We wish to establish agencies in the country towns, any persons willing to act for us, will have the kindness to drop us a line, (post paid) to that effect, with a city reference; and we will enter into arrangements with them at once. They will find our terms exceedingly liberal.

* * * Country editors with whom we exchange, will oblige us by giving this notice a few insertions in their papers.
